

**My Digital Legacy:** How do I want to be remembered?

Do I have a “practical stuff” plan or will? How can I improve this plan?

What do I create? What have I created in the past? What do I want to create?

Where is my stuff stored (digitally/physically)? How much of it is centralized?

How good are my backups? Do I follow 3-2-1? How organized am I?

How many different “walled gardens” is my stuff in?

How can I add better context to the things I have?

Are there any questions that I want to ask or experiences that I want to share?

What conversations would I like to have?

Who can help me? Who do I want to talk to? How much time do I have?

What am I going to do in the next 30 Days? What’s my goal?
